

2nd Annual GAR Live Dubai: 19 November 2015

Rachel Ansell KC will be speaking at the 2nd Annual GAR in Dubai on 19th November 2015. Rachel and three other leading construction specialists will each introduce and discuss a hot topic in Construction Arbitration.

The panel will focus on:

- How interventionist should tribunals be in ensuring that expert witnesses actually assist in clarifying complex technical issues in an efficient manner?
- Efficiently dealing with disclosure given the significant volume of relevant documentation demanded by construction disputes.
- How to prevent employers from wielding their sword of Damocles' over contractors through unmeritorious performance bond calls.
- Preliminary enforcement of DAB or Engineer's decisions as partial awards pending a final award – can arbitral tribunals be persuaded to follow the reasoning of the Singapore Court of Appeal's decision in PT Perusahaan Gas Negara (Persero) TBK vs. CRW Joint Operation?

More information on the event can be found [here](#).
