

4 Pump Court hosting Tech Disputes Network Event on 'Quantum Computing and the Law' – Tuesday 18th March

Join us on Tuesday 18 March, when we will be hosting a Tech Disputes Network event on the topic of 'Quantum Computing and the Law'. [Laura Wright](#) and [Rebecca Keating](#) will give an introduction to quantum computing and the challenges and opportunities it presents. As part of the discussion, attendees will learn how quantum computing works by viewing simulations and a live cloud-based platform. Topics will include the current state of quantum technology, its implications for data security, intellectual property, and contract law, as well as how to prepare for and navigate disputes that may arise in this rapidly evolving field. Drawing on lessons from recent developments, the panel will discuss how to stay ahead in this transformative area of technology. At the end of the session, there will be an opportunity to ask questions and to network over drinks.

Gain valuable insights into quantum computing and its legal implications from Laura and Rebecca who have recently published a book on the topic. Learn what are the current legal implications of this cutting-edge technology and what is on the near horizon.

To sign up for this event, please see [here](#).

'A Practical Guide to Quantum Computing and the Law' is available for purchase [here](#).
