

Virtual Fraud Conference 2021

The Fraud Conference 2021 will bring together world-class speakers including policy makers, insolvency experts, fraud specialists (including cryptocurrency fraud) and renowned academics, who will deliver unique insights into hot topics related to global financial crime including tackling rogue companies, cryptocurrency fraud and digital forensics.

[Matthew Lavy](#) will be speaking at a panel session called “Secret agents, smart contracts and crypto assets: recovering funds in cryptocurrency fraud”. The panel will consider the latest developments and practical implications for counter fraud and asset recovery professionals working with new and emerging technologies.
