

# Webinar: Spotlight on... Energy Disputes

On 18th March, [Thomas Crangle](#) will be joining Damian James, Delay and Quantum experts, along with Rob Wilson, Partner and Head of Energy at CMS, for a discussion focusing on energy disputes.

The panel will cover a range of topical issues currently facing the sector, including:

- What are the biggest risks on energy projects and how can we mitigate against them?
- What steps can you take to avoid disputes on energy projects?
- What makes energy disputes particularly challenging?
- What are the common mistakes people make when preparing for energy disputes?
- What does the future look like for the resolution of energy disputes?
- What about renewables? What are the contract / commercial risks and do they differ from other projects?

**Date:** 18th March 2021

**Time:** 08:30am London / 10:30am South Africa
